About Archer Exploration

Archer is focused on electric metals projects, which include copper, cobalt, nickel and vanadium. The future demand for these metals is seen as extremely robust, with supply facing a number of significant constraints. The Company is exploring its Caster project in Quebec and is advancing its potential acquisition of the Zanzui Nickel Project in Tanzania.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.
